SUMMARY

Industrial Product Manager with expertise in IoT platform analytics, telemetry data strategy, and multi-warehouse inventory forecasting. Skilled in roadmap prioritization, KPI dashboard development, and cross-functional execution supporting industrial motion products and maintenance-driven forecasting for manufacturing operations.

CORE SKILLS

Product Strategy • IoT Platforms • Telemetry Analytics • Forecasting Systems • Roadmap Strategy • Hardware/Software Collaboration

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Built and scaled a 12-person industrial branch, achieving profitability within 12 months and exceeding \$500K revenue targets by 15% through optimized operations, forecasting, and inventory planning.
- Orchestrated pricing, forecasting, inventory planning, and technical support for 1000+ SKUs in industrial motion product lines, enhancing availability and supporting industrial automation growth with a 2-month forecasting cycle.
- Secured exclusive 15+ year THK distribution rights in Colombia by driving vendor negotiations, technical training, and inventory planning, expanding industrial automation market presence and establishing a strategic partnership.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined scalable MVP strategy for telemetry analytics platform, prioritizing summary-level reporting to cover 80% of customer needs, reducing custom solutions to 1%, and improving scalability and roadmap prioritization.
- Drove 35% increase in enterprise API adoption by prioritizing customer-focused REST API enhancements and streamlining onboarding for IoT telemetry analytics platforms.
- Orchestrated analytics and API product roadmap strategy by aligning executive, engineering, and customer priorities, enhancing platform scalability, customer value, and executive visibility.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Built executive Power BI dashboards integrating IoT KPIs for 100+ communities and 600+ users, enhancing VP-level visibility, enabling data-driven roadmap prioritization, and improving platform performance analysis.
- Built and automated KPI dashboards using Power BI and Databricks to track onboarding and engagement for 600+ users across 100+ communities, improving onboarding efficiency by 15% and enabling data-driven product decisions.
- Orchestrated cross-functional planning and delivery of software, firmware, and hardware features for MyQ Community IoT platform, enhancing device integration and product delivery alignment.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built multi-warehouse inventory forecasting platform using Python, integrating Amazon FBA, AWD, and SKU bundling logic to improve inventory rotation 4x and enable proactive replenishment planning.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Supported technical product selection and operational planning for industrial applications in cooling towers, conveyors, and bucket elevators, enhancing reliability and strengthening relationships with strategic accounts like Disney and Universal.
- Orchestrated maintenance-driven forecasting and inventory planning with distributors and industrial customers across Central/North Florida and South Georgia, enhancing operational readiness and maintenance alignment.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
