SUMMARY

Technical Product Manager with expertise in Agile roadmap ownership and backlog prioritization for IoT platforms and telemetry analytics. Skilled in cross-functional execution, API strategy, and developing inventory forecasting systems to optimize industrial operations and supply chain visibility.

CORE SKILLS

Product Strategy • Agile Delivery • Roadmap Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Owned and prioritized MyQ Community platform roadmap and backlog using Agile and RICE methodology, coordinating cross-functional teams to improve sprint delivery and feature completion in two-week cycles.
- Implemented RICE prioritization and managed two-week Agile sprints, enhancing backlog management, sprint consistency, and release stability while increasing stakeholder visibility across frontend, backend, and QE teams.
- Orchestrated cross-functional planning and delivery across software, firmware, hardware, UX, and analytics teams to align IoT platform initiatives, enhancing device integration and product delivery.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined and prioritized MVP roadmap for telemetry analytics platform, delivering summary-level reporting covering 80% of customer needs, enhancing scalability and reducing custom development approval to 1%.
- Orchestrated analytics and API product roadmap strategy by aligning executive, engineering, and customer priorities, enhancing platform scalability, customer value, and executive visibility into requirements.
- Drove 35% enterprise API adoption growth by prioritizing customer-focused REST API enhancements and simplifying IoT telemetry integration workflows on Azure, improving onboarding and expanding analytics platform usage.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built multi-warehouse inventory forecasting platform using Python to convert bundle sales into unit demand, improving inventory rotation 4x and enabling proactive replenishment across Amazon FBA, AWD, and local warehouses.
- Orchestrated centralized inventory visibility system integrating warehouses, Amazon FBA, AWD, and five distributors, enhancing multi-channel fulfillment coordination and reducing inventory inconsistencies across Amazon and Shopify marketplaces.
- Built and launched custom operational tooling using Python and SQLite to scale inventory from 9 to 15 SKUs, standardize fulfillment workflows, and replace costly ERP systems.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Launched and scaled a new industrial branch, managing a 12-person team and operations to achieve profitability in 12 months and exceed \$500K revenue targets by 15%.
- Secured exclusive 15+ year THK distribution rights in Colombia by driving technical training, inventory planning, and vendor negotiations, enhancing market positioning and establishing a strategic industrial automation partnership.
- Orchestrated pricing, forecasting, inventory planning, and technical support for 1000+ industrial motion SKUs, improving product availability and supporting industrial automation growth with a 2-month forecasting cycle.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Orchestrated maintenance-driven demand forecasting and inventory planning with distributors and customers, enhancing operational readiness and aligning product availability with maintenance schedules across Central/North Florida and South Georgia.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
