SUMMARY

Data-driven Product Manager with expertise in building AI-powered analytics, KPI dashboards, and forecasting platforms for IoT and supply chain operations. Skilled in cross-functional delivery of telemetry analytics, automation, and customer-facing reporting solutions to optimize adoption, engagement, and inventory management.

CORE SKILLS

Product Strategy • Forecasting Systems

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Built and automated Power BI dashboards integrating Databricks to track onboarding and engagement KPIs for 600+ users across 100+ communities, improving onboarding efficiency by 15% and enabling data-driven decisions.
- Built executive KPI dashboards using Power BI and SQL to monitor adoption and engagement across 100+ communities and 600+ users, enhancing leadership visibility and data-driven roadmap prioritization.
- Orchestrated cross-functional planning and delivery across software, firmware, hardware, UX, and analytics teams to enhance IoT platform integration and improve product delivery alignment.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built daily KPI dashboards tracking ROAS, TACOS, and product mix to enhance visibility into advertising and bundle performance, enabling data-driven pricing and growth strategy decisions that drove 75% 3-pack revenue share.
- Built multi-warehouse inventory forecasting platform using Python, improving inventory rotation 4x, enhancing visibility across fulfillment environments, and enabling proactive replenishment planning for optimized supply chain analytics.
- Built AI-powered analytics workflows automating sales reporting and PPC optimization across Amazon and Shopify, reducing manual effort by 80% and enabling daily KPI monitoring for data-driven decisions.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Built IoT telemetry analytics dashboards and KPI frameworks for 15+ enterprise customers, enhancing operational visibility and reducing customer churn by 15%.
- Built scalable ETL workflows using Python and Azure to standardize inconsistent IoT telemetry and customer data, improving data quality, enabling enterprise analytics reporting, and reducing manual cleansing efforts.
- Built Python-based customer-specific analytics workflows to analyze seasonal transportation trends, enhancing operational visibility, supporting retention, and expanding enterprise analytics adoption.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Launched and scaled a new industrial branch, managing a 12-person team and operations to exceed revenue targets by 15% and achieve profitability within 12 months using forecasting and inventory planning.
- Orchestrated pricing, forecasting, inventory planning, and technical support for 1000+ SKUs in industrial automation, improving product availability and supporting growth with a two-month forecasting cycle.
- Orchestrated exclusive 15+ year THK distribution rights in Colombia by driving technical training, inventory planning, and vendor negotiations to expand market positioning and secure strategic partnership.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Orchestrated maintenance-driven forecasting and inventory planning with distributors and customers, enhancing operational readiness and aligning product availability with maintenance schedules across Central/North Florida and South Georgia.
