SUMMARY

Data-driven Product Manager with expertise in AI-powered analytics, inventory forecasting, and multi-channel supply chain operations for industrial assets and warehouse systems. Skilled in Agile delivery, telemetry data pipelines, and cross-functional execution to optimize maintenance-driven forecasting and operational performance.

CORE SKILLS

Product Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built multi-warehouse inventory forecasting platform using Python, improving inventory rotation 4x, enhancing visibility across fulfillment centers, and enabling proactive replenishment planning for optimized supply chain operations.
- Built centralized inventory visibility system integrating warehouses, Amazon FBA, AWD, and 5 distributors, enhancing multi-channel fulfillment coordination and reducing inventory inconsistencies across operations.
- Built AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC optimization, reducing manual effort by 80% and enabling daily operational KPI monitoring across marketplaces.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Built and scaled a 12-person industrial branch, achieving \$500K revenue and profitability within 12 months while exceeding targets by 15% through optimized operations, inventory planning, and team leadership.
- Secured exclusive 15+ year THK distribution rights in Colombia by driving technical training, inventory planning, and vendor negotiations, strengthening industrial automation positioning and strategic partnerships.
- Owned pricing, forecasting, inventory, and technical support for 1000+ SKUs in industrial motion product lines, improving availability and supporting growth with a 2-month forecasting cycle.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Built scalable ETL workflows using Python and Azure to standardize inconsistent IoT telemetry and customer trip data, improving data quality, reducing manual cleansing, and enabling enterprise analytics reporting.
- Built IoT telemetry analytics dashboards and KPI frameworks for 15+ enterprise customers, enhancing operational visibility and reducing customer churn by 15% in transportation and food logistics.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Orchestrated maintenance-driven demand forecasting and inventory planning with distributors and industrial customers, enhancing operational readiness and maintenance alignment across Central/North Florida and South Georgia.

- Supported technical product selection and operational planning for industrial applications, enhancing reliability and strengthening relationships with strategic manufacturing accounts including Disney and Universal.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Built and automated Power BI dashboards integrating Databricks to track onboarding and engagement KPIs for 600+ users across 100+ communities, improving onboarding efficiency by 15%.
- Built Power BI executive dashboards integrating onboarding, engagement, and IoT device KPIs for 100+ communities and 600+ users, enhancing visibility and enabling data-driven roadmap prioritization.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
