## SUMMARY

---

Senior Product Manager with expertise leading cross-functional teams to deliver complex IoT and telemetry platforms. Skilled in strategic roadmap prioritization, Agile delivery, and stakeholder alignment, driving scalable product solutions and operational tooling with a focus on AI workflows and analytics automation.

## CORE SKILLS

---

Product Strategy • Operational Automation

## TECHNICAL TOOLS

---

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

## EXPERIENCE

---

### CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Coordinated cross-functional teams across software, firmware, hardware, UX, and analytics to align feature planning and delivery for the MyQ IoT platform, enabling expanded device integrations and improved product execution.
- Owned and prioritized the MyQ Community platform roadmap, managing biweekly Agile sprints with RICE methodology and coordinating frontend, backend, and QA teams to improve feature delivery and backlog efficiency.
- Implemented RICE prioritization and managed two-week Agile sprints, improving bug backlog management, release stability, and cross-team visibility for frontend, backend, and QA teams.

### EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Orchestrated analytics and API roadmap prioritization by aligning executive, engineering, and customer input to balance scalability with enterprise requirements and enhance product strategy visibility.
- Increased enterprise REST API adoption 35% by prioritizing customer-driven enhancements and simplifying onboarding for IoT telemetry analytics platform integrations.
- Defined and prioritized MVP roadmap for telemetry analytics platform, delivering summary reports covering 80% of customer needs while limiting custom solutions to 1%, improving scalability and reducing development overhead.

### LITET

Technical Product & Analytics Lead | 2023 - Present

- Built Python-based operational tooling replacing ERP to scale inventory from 9 to 15 SKUs and standardize fulfillment workflows, improving coordination without enterprise system investment.
- Built Python-based AI workflows using OpenAI APIs to automate sales reporting and PPC optimization, reducing manual effort by 80% and enabling daily operational KPI monitoring across e-commerce channels.
- Led 20+ customer interviews and iterative testing over six months to validate product design, fit, and pricing, driving improved product-market fit and supporting successful adoption.

### LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Secured exclusive THK distribution rights for Colombia by leading vendor negotiations, technical training, and inventory planning, establishing a 15+ year strategic partnership and expanding market presence in linear motion.
- Owned pricing, forecasting, and inventory planning for 1000+ industrial motion SKUs, coordinating suppliers and technical support to improve availability and support automation product growth.
- Coordinated technical support and workflows between THK, Thomson engineering teams, and customers to enhance industrial application success and strengthen vendor partnerships.

## **EDUCATION**

---

### **FLORIDA INTERNATIONAL UNIVERSITY**

Master of Business Administration (MBA) | 2018

### **FLORIDA INTERNATIONAL UNIVERSITY**

Bachelor of Science (BS) in Mechanical Engineering | 2010
