SUMMARY

Technically adept product manager with expertise in AI-driven analytics, inventory forecasting, and operational systems. Skilled in cross-functional collaboration and roadmap ownership, driving scalable e-commerce growth through data ingestion, catalog normalization, and automation to enhance personalized product recommendations.

CORE SKILLS

Product Strategy • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built Python-based operational tooling replacing ERP to scale inventory management and fulfillment workflows, supporting SKU growth from 9 to 15 and standardizing processes at LITET.
- Built centralized inventory visibility system integrating Amazon, Shopify, warehouses, and five distributors to reduce inconsistencies and improve fulfillment coordination across multi-channel operations.
- Built multi-warehouse inventory forecasting platform using Python to convert bundle sales into unit demand, improving inventory rotation 4x and enabling proactive replenishment across fulfillment environments.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Shaped analytics and API product roadmap by leading cross-functional prioritization with executives, engineers, and customers to align platform scalability with enterprise needs and improve stakeholder visibility.
- Built Python and Azure ETL workflows to normalize inconsistent IoT telemetry and customer data, improving data quality and enabling scalable enterprise analytics reporting at Emerson Electric.
- Defined and prioritized MVP roadmap for telemetry analytics platform, delivering summary reports covering 80% of customer needs while limiting custom solutions to 1%, improving scalability and reducing development overhead.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Owned and prioritized the MyQ Community platform roadmap using Agile and RICE, coordinating cross-functional teams to improve sprint delivery and backlog efficiency on two-week cycles.
- Implemented RICE prioritization and managed two-week Agile sprints across frontend, backend, and QA teams, improving bug backlog management, release stability, and stakeholder visibility.
- Orchestrated cross-functional planning and delivery across software, firmware, hardware, UX, and analytics teams to align MyQ IoT platform initiatives and expand device integrations.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Secured exclusive THK distribution rights for Colombia by leading vendor negotiations, technical training, and inventory planning, establishing a 15+ year strategic partnership and expanding market positioning.
- Owned pricing, forecasting, and inventory coordination for 1000+ SKUs in industrial motion products, managing a two-month forecasting cycle and supplier alignment to improve availability and technical support.
- Coordinated technical support and workflows between THK, Thomson engineering teams, and customers to enhance industrial application success and strengthen vendor relationships.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
