SUMMARY

AI-first Product Manager driving B2B SaaS product discovery and prioritization through AI-powered automation and rapid prototyping. Leverages customer empathy and data-driven insights to lead cross-functional teams and deliver scalable analytics and operational solutions.

CORE SKILLS

Product Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC optimization, reducing manual effort by 80% and enabling daily KPI monitoring across Amazon and Shopify channels.
- Built AI-assisted PPC optimization workflows using Python and OpenAI API to automate keyword prioritization and bid decisions, improving consistency and scaling analysis targeting 20% TACOS efficiency.
- Built multi-warehouse inventory forecasting platform converting bundle sales into unit demand, boosting inventory rotation 4x and enabling proactive replenishment across fulfillment environments.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Built ETL workflows standardizing inconsistent enterprise telemetry data, improving data quality and enabling scalable analytics reporting while reducing manual cleansing efforts.
- Defined MVP roadmap prioritizing summary analytics covering 80% of enterprise telemetry needs, reducing custom solutions to 1% and improving platform scalability and customer-focused tradeoffs.
- Orchestrated cross-functional roadmap prioritization with executives, engineers, and customers to align analytics and API products with scalable platform goals and enterprise needs.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Coordinated cross-functional teams across software, firmware, hardware, UX, and analytics to align feature planning and delivery for the MyQ Community IoT platform, enabling expanded device integrations.
- Built executive dashboards tracking adoption and engagement for 100+ IoT communities and 600+ users, enabling VP-level prioritization and KPI-driven product decisions.
- Owned and prioritized the MyQ Community platform roadmap using RICE and Agile, coordinating frontend, backend, and QA teams to improve sprint delivery and backlog efficiency in two-week cycles.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Coordinated technical support between THK and Thomson engineering teams to resolve industrial customer application challenges, enhancing support capabilities and strengthening vendor partnerships.

- Secured exclusive THK distribution rights for Colombia by leading negotiations, technical training, and inventory planning, establishing a 15+ year strategic partnership and expanding market positioning.
- Owned pricing, forecasting, and supplier coordination for 1000+ SKUs, streamlining a two-month forecasting cycle to improve product availability and technical support for industrial automation lines.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
