SUMMARY

Senior Technical Product Manager with extensive experience delivering 0 to 1 products in agile environments. Skilled at translating stakeholder needs into actionable user stories and acceptance criteria, prioritizing backlogs using RICE, and leading cross-functional teams to launch scalable platforms with APIs, telemetry, and AI-driven analytics.

CORE SKILLS

Product Strategy • Agile Delivery • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Implemented RICE prioritization and managed two-week Agile sprints, improving bug backlog management, release stability, and cross-team sprint execution visibility.
- Owned roadmap and backlog for MyQ Community platform, implementing RICE prioritization and managing two-week Agile sprints across frontend, backend, and QA teams to improve feature delivery and prioritization efficiency.
- Coordinated cross-functional teams across software, firmware, hardware, UX, and analytics to align feature planning and delivery for the MyQ Community IoT platform.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built Python-based operational tooling to replace ERP, scaling inventory from 9 to 15 SKUs and standardizing fulfillment workflows without enterprise system investment.
- Built Python-based AI analytics agents using OpenAI API to automate sales reporting and PPC optimization, reducing manual effort by 80% and enabling daily KPI monitoring across e-commerce channels.
- Built Python-based multi-warehouse inventory forecasting platform integrating bundled SKU logic, improving inventory rotation 4x and enabling proactive replenishment across fulfillment environments.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives, engineering, and customers to define and prioritize analytics and API product roadmap, aligning platform scalability with enterprise customer needs.
- Increased enterprise API adoption 35% by prioritizing customer-driven REST API enhancements and simplifying onboarding for IoT telemetry analytics platform integrations.
- Defined MVP strategy for telemetry analytics platform, prioritizing summary reports covering 80% of customer needs to improve scalability and reduce custom development to 1% approval rate.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Negotiated and secured exclusive THK distribution rights for Colombia by leading technical training, inventory planning, and business development, establishing a 15+ year strategic vendor partnership.
- Managed pricing, forecasting, and supplier coordination for 1000+ SKUs in industrial motion portfolio, improving product availability and technical support through a two-month forecasting cycle.
- Coordinated technical support and workflows between THK, Thomson engineering teams, and customers to enhance industrial application success and strengthen vendor relationships.
