SUMMARY

Data-driven Senior Product Manager with expertise in building scalable consumer and operational platforms through cross-functional collaboration. Skilled in product strategy, experimentation, and analytics using SQL, Python, and Power BI, with adjacent experience in IoT telemetry and AI-powered automation supporting personalization and photo upload workflows.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built daily KPI dashboards using Power BI and Python to centralize PPC, pricing, and bundle performance data, driving 75% of 3-pack revenue and enabling data-driven growth and product strategy decisions.
- Automated sales and PPC reporting with AI workflows using Python and OpenAI APIs, cutting manual effort by 80% and enabling daily KPI monitoring across Amazon and Shopify marketplaces.
- Orchestrated data-driven product strategy and PPC optimization for Amazon and Shopify, boosting e-commerce revenue 400% YoY and improving ROAS from 1.2 to 4.0 through KPI-focused experimentation and analytics.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Built IoT telemetry analytics dashboards using SQL and Power BI, enhancing operational visibility for 15+ enterprise customers and reducing churn by 15% through data-driven KPI reporting.
- Built Python and Azure ETL pipelines standardizing inconsistent telemetry data, enhancing data quality and enabling scalable enterprise analytics with SQL and Snowflake integration.
- Prioritized summary-level telemetry analytics covering 80% of enterprise customer needs, boosting platform scalability and cutting custom development approval to 1% through strategic roadmap tradeoffs.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Built Power BI KPI dashboards tracking adoption and engagement across 100+ communities and 600+ users, enhancing executive visibility and guiding data-driven roadmap prioritization for the MyQ IoT platform.
- Built Power BI dashboards and automated analytics integrating Databricks and SQL to track onboarding and engagement KPIs, boosting MyQ Community platform onboarding efficiency by 15% across 100+ communities and 600+ users.
- Orchestrated Agile roadmap and backlog for MyQ Community platform using RICE prioritization, boosting sprint feature completion and prioritization efficiency across frontend, backend, and QE teams.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Orchestrated pricing, forecasting, and supplier coordination for 1000+ industrial motion SKUs, improving product availability and technical support to drive automation product line growth.
- Secured exclusive THK distribution rights for Colombia by orchestrating technical training, inventory planning, and business development, establishing a 15+ year strategic partnership and expanding market positioning.
- Scaled new industrial branch operations by building a 12-person team and coordinating workflows, achieving profitability in 12 months and exceeding \$500K revenue targets by 15% through data-driven forecasting and planning.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
