SUMMARY

Seasoned product manager driving data-informed roadmaps and AI-powered automation for scalable consumer platforms. Expert in analytics, cross-functional collaboration, and operational dashboards, delivering personalized experiences through strategic prioritization and cloud-based workflows.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed the MyQ Community platform roadmap, prioritizing features with RICE methodology and coordinating frontend, backend, and QE teams to enhance sprint delivery and backlog efficiency in a two-week Agile cycle.
- Collaborated across software, firmware, hardware, UX, and analytics teams to align IoT platform initiatives, improving cross-functional coordination and supporting expanded device integrations.
- Developed Power BI dashboards and automated reporting integrating Databricks and SQL, boosting onboarding efficiency by 15% and enabling data-driven decisions for over 600 active users across 100+ communities.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined and prioritized a scalable MVP roadmap for telemetry analytics, balancing detailed data access with summary reporting to cover 80% of customer needs and reduce custom development by 99%.
- Collaborated with executives, engineering, and strategic customers to align analytics and API product roadmaps, enhancing platform scalability and executive visibility into customer requirements.
- Developed ETL workflows using Python, Azure, and Snowflake to standardize inconsistent telemetry data, improving data quality and enabling scalable enterprise analytics for over 15 customers.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Led product strategy and roadmap execution for AI-powered analytics and PPC optimization workflows, reducing manual reporting effort by 80% and enabling daily operational KPI monitoring across Amazon and Shopify channels.
- Developed scalable internal operational tools using Python and Streamlit to streamline inventory management and fulfillment, supporting SKU growth from 9 to 15 without ERP investment.
- Applied data-driven experimentation and profitability analysis to launch bundled product offerings, driving 75% of revenue from 3-pack bundles and enhancing overall product mix and conversion.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
