SUMMARY

Senior Product Manager with expertise in AI-powered IoT platforms, leading cross-functional teams to deliver scalable telemetry analytics and operational systems. Skilled in driving product strategy, platform development, and customer adoption by integrating hardware, firmware, and software to optimize workflows and forecasting.

CORE SKILLS

Product Strategy • IoT Platforms • Telemetry Analytics • Forecasting Systems • Roadmap Strategy • Hardware/Software Collaboration • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Directed product roadmap and MVP strategy for Emerson's telemetry analytics platform, prioritizing scalable summary reporting that met 80% of enterprise customer needs while minimizing custom development.
- Collaborated with executives, engineering, and customers to align analytics and API product roadmaps, enhancing platform scalability and executive visibility into customer-driven priorities.
- Increased enterprise API adoption by 35% through customer-focused enhancements that simplified REST API integrations and improved onboarding for IoT telemetry analytics users.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Directed development of a multi-warehouse inventory forecasting platform integrating Amazon FBA, AWD, and local warehouses, boosting inventory rotation from 1x to 4x and enabling proactive replenishment planning.
- Created AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and supporting daily operational decision-making.
- Designed custom operational tooling with Python and Streamlit as a scalable ERP alternative, enhancing inventory management and fulfillment workflows while supporting SKU growth from 9 to 15.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed roadmap prioritization and Agile backlog management for the MyQ Community platform, enhancing sprint feature completion and aligning cross-functional teams using RICE methodology and tools like Jira and Power BI.
- Led cross-disciplinary coordination among software, firmware, hardware, UX, and analytics teams to expand IoT device integrations and improve product delivery alignment for Chamberlain Group's connected device initiatives.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Launched and led a new industrial sales branch with a 12-person team, achieving profitability within 12 months and exceeding revenue targets by 15% through streamlined operations and inventory planning.
- Managed a portfolio of 1000+ industrial motion SKUs, optimizing pricing, forecasting, and supplier coordination to improve product availability and support growth in automation product lines.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
