SUMMARY

Technically adept Senior Product Manager with deep IoT and embedded systems expertise, driving cross-functional collaboration across hardware, firmware, and software teams to deliver scalable, AI-powered telemetry analytics and operational platforms that enhance customer outcomes and streamline workflows.

CORE SKILLS

Product Strategy • IoT Platforms • Telemetry Analytics • Forecasting Systems • Roadmap Strategy • Hardware/Software Collaboration • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Led cross-functional coordination among software, firmware, hardware, UX, and analytics teams to enhance the MyQ Community IoT platform, improving integration and delivery alignment across engineering disciplines.
- Directed roadmap prioritization and Agile backlog management using RICE methodology, accelerating feature delivery and increasing sprint completion efficiency on customer-facing and internal platform features.
- Spearheaded expansion of MyQ platform device compatibility by managing integration initiatives for additional IoT devices and firmware systems, boosting platform scalability and supporting broader customer adoption.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Led development of a scalable telemetry analytics MVP, prioritizing summary-level reporting to cover 80% of customer needs while reducing custom solutions to 1%, enhancing platform scalability and efficiency.
- Increased enterprise API adoption by 35% through simplifying REST API integrations and streamlining customer onboarding, expanding usage of IoT telemetry analytics across operational systems.
- Built ETL workflows using Python and Azure to standardize inconsistent telemetry data, improving data quality and supporting scalable analytics for over 15 enterprise customers in transportation and logistics.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC optimization, reducing manual effort by 80% and enabling daily operational KPI monitoring across Amazon and Shopify channels.
- Designed and implemented lightweight internal operational systems with Python and SQLite, replacing ERP dependency to scale inventory management and fulfillment workflows, supporting SKU growth from 9 to 15.
- Led customer interviews and iterative product testing to refine product design and positioning, improving product-market fit and supporting successful adoption through validated materials and pricing strategies.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Launched and scaled a new industrial branch, building cross-functional teams and operational workflows that achieved profitability within 12 months and exceeded revenue targets by 15%, supporting growth in industrial product lines.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
