SUMMARY

Technical product leader with experience driving IoT hardware, telemetry analytics, and AI-powered operational platforms. Skilled at cross-functional collaboration and customer discovery to deliver scalable connected vehicle experiences that enhance safety, efficiency, and engagement.

CORE SKILLS

Product Strategy • IoT Platforms • Telemetry Analytics • Forecasting Systems • Roadmap Strategy • Customer Discovery • Hardware/Software Collaboration • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Led cross-functional coordination of software, firmware, hardware, UX, and analytics teams to enhance the MyQ Community IoT platform, improving device integration and product delivery alignment.
- Directed roadmap prioritization and Agile backlog management for MyQ platform features, increasing sprint completion efficiency using RICE methodology across frontend, backend, and QE teams.
- Expanded MyQ platform scalability by managing integration initiatives for additional IoT devices and firmware-connected systems, supporting broader ecosystem compatibility and customer adoption.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Led cross-functional teams to enhance Emerson's IoT telemetry platform, increasing enterprise API adoption by 35% through simplified REST API integrations and improved customer onboarding.
- Directed product roadmap prioritization with executives and strategic customers, balancing scalable telemetry analytics and customizable reporting to cover 80% of customer needs while reducing custom solutions to 1%.
- Developed ETL workflows standardizing inconsistent telemetry data using Python and Azure, improving data quality and enabling scalable analytics for transportation and logistics enterprise customers.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Led development of AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC optimization, reducing manual effort by 80% and enabling daily operational KPI monitoring across multiple marketplaces.
- Designed and implemented a multi-warehouse inventory forecasting platform integrating Amazon FBA, AWD, and local warehouses, improving inventory rotation from 1x to 4x and enhancing replenishment planning accuracy.
- Built automated PO planning and replenishment systems incorporating SKU reorder points, vendor lead times, and MOQ optimization, streamlining vendor purchasing and inventory allocation across complex fulfillment environments.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Launched and led a new industrial sales branch, building a 12-person team and coordinating operations, sales, and warehouse workflows to achieve profitability within 12 months and exceed revenue targets by 15%.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
