SUMMARY

Senior product leader with proven success building scalable, data-driven consumer platforms through rigorous roadmap ownership and analytics. Experienced in AI-powered automation and operational tooling that enhance user engagement and conversion, combining technical depth with customer-focused product strategy.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed the MyQ Community platform roadmap, prioritizing features and managing Agile backlogs with RICE methodology to enhance sprint delivery and stakeholder alignment across frontend, backend, and QE teams.
- Developed executive Power BI dashboards integrating onboarding, user engagement, and IoT device metrics, enabling VP-level stakeholders to monitor platform adoption and inform data-driven roadmap decisions.
- Led cross-functional coordination among software, firmware, hardware, UX, and analytics teams to align feature planning and delivery, supporting scalable IoT device integrations and improving product release consistency.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Led product strategy and roadmap execution for LITET's e-commerce platform, driving 400% YoY revenue growth and quadrupling ROAS through data-driven PPC optimization and marketplace expansion.
- Developed AI-powered analytics agents using OpenAI APIs and Python to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily KPI monitoring.
- Built a multi-warehouse inventory forecasting platform integrating bundled SKU logic, improving inventory rotation from 1x to 4x and enabling proactive replenishment across fulfillment environments.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Led MVP strategy for telemetry analytics platform, prioritizing scalable summary reporting that met 80% of enterprise customer needs while reducing custom development to 1%, enhancing platform scalability and focus.
- Collaborated with executives, engineering, and strategic customers to align analytics and API roadmap priorities, improving executive visibility and supporting growth of data-driven product platforms.
- Delivered IoT telemetry analytics dashboards using SQL, Python, and Power BI, increasing operational visibility and reducing customer churn by 15% across 15+ enterprise clients.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
