SUMMARY

Seasoned product leader driving scalable consumer platform growth through data-driven personalization, photo upload, and e-commerce innovations. Combines cross-functional collaboration with technical and analytical expertise to deliver customer-focused product strategies and measurable engagement gains.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed roadmap and backlog prioritization for the MyQ Community platform, enhancing feature delivery efficiency and aligning cross-functional teams using Agile and RICE methodologies.
- Collaborated with software, firmware, hardware, UX, and analytics teams to synchronize product initiatives, supporting IoT device integration and improving delivery alignment.
- Developed KPI dashboards integrating onboarding, engagement, and IoT device metrics, enabling data-driven decisions that increased onboarding efficiency by 15% across 100+ communities.
- Analyzed user behavior and feedback to identify friction points, driving product improvements that boosted platform adoption and user engagement by 15%.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Led data-driven product strategy optimizing pricing, listings, and PPC campaigns across Amazon and Shopify, driving 400% YoY e-commerce revenue growth and quadrupling ROAS from 1.2 to 4.0.
- Developed AI-powered analytics agents automating sales reporting and bid optimization, reducing manual effort by 80% and enabling daily KPI monitoring to support scalable marketplace operations.
- Launched bundled product configurations based on profitability and customer purchase analysis, increasing 3-pack revenue share to 75% and enhancing average order value and operational efficiency.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Directed the launch of a scalable enterprise analytics product leveraging telemetry data, generating over \$200K in new revenue and expanding customer adoption through a customer-focused MVP approach.
- Developed robust ETL workflows using Python, Azure, and Snowflake to standardize and process IoT telemetry data, enhancing data quality and enabling scalable analytics reporting.
- Collaborated with executives, engineering, and customers to prioritize analytics and API roadmap features, aligning product strategy with enterprise needs and driving platform growth.
