EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Led cross-functional development and launch of a scalable enterprise telemetry analytics product, generating over \$200K in new revenue and expanding customer adoption through a focused MVP strategy.
- Collaborated with executives and engineering teams to align analytics and API roadmap priorities, improving executive visibility and balancing customer needs with platform scalability.
- Synthesized customer interviews into scalable telemetry reporting requirements, reducing custom development by 99% and enhancing product delivery efficiency for enterprise clients.
- Delivered IoT telemetry analytics solutions that improved operational insights and reduced customer churn by 15%, strengthening platform value and retention across 15+ enterprise customers.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed the MyQ Community platform roadmap, prioritizing features and managing Agile sprints to enhance customer-facing functionality and improve sprint completion rates.
- Partnered with UX, engineering, and customer teams to identify and resolve user friction points, boosting customer satisfaction and increasing NPS by 10 points.
- Led cross-functional coordination among software, firmware, hardware, and analytics teams to align product initiatives and expand IoT device integrations.
- Developed executive-level KPI dashboards using Power BI and Databricks, enabling data-driven decisions that increased onboarding efficiency by 15% and supported platform adoption growth.
