EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Directed the product roadmap and strategy for Emerson's telemetry analytics and API platforms, aligning engineering and customer priorities to deliver scalable, enterprise-grade solutions that generated over \$200K in new revenue.
- Led customer discovery and prioritized scalable MVP features, balancing detailed telemetry data access with summary analytics to cover 80% of customer needs while minimizing custom development.
- Enhanced user adoption by simplifying API integrations and onboarding workflows, increasing enterprise API usage by 35% and expanding platform engagement across IoT telemetry customers.
- Collaborated closely with executives, engineering, and customers to align product vision, improve stakeholder communication, and ensure roadmap decisions reflected both scalability and customer value.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed the MyQ Community platform roadmap, prioritizing features and managing Agile sprints to enhance customer-facing functionality and improve delivery efficiency across frontend, backend, and QA teams.
- Developed executive dashboards integrating onboarding, engagement, and IoT device metrics, enabling VP-level stakeholders to monitor platform adoption and guide strategic product decisions.
- Partnered with UX, engineering, and customer teams to identify and resolve user friction points, boosting customer satisfaction by 10 NPS points and strengthening platform engagement.
- Leveraged product usage data and customer feedback to prioritize improvements that increased MyQ Community platform adoption by 15%, supporting data-driven roadmap planning and user experience enhancements.
