SUMMARY

Product leader with experience shaping scalable dashboard strategies and governance frameworks that enhance platform adoption and interoperability. Skilled at collaborating across teams and leveraging customer insights to optimize user experience and drive impactful product roadmaps.

CORE SKILLS

Product Strategy • Roadmap Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed the MyQ Community platform roadmap, applying Agile and RICE prioritization to align cross-functional teams and accelerate feature delivery, enhancing platform scalability and user engagement.
- Partnered with UX and engineering to identify and resolve user friction points, driving a 15% increase in platform adoption and a 10-point NPS improvement through targeted experience enhancements.
- Developed executive dashboards consolidating IoT device and community engagement metrics, enabling data-driven prioritization and strategic decisions that supported platform growth across 100+ communities.
- Coordinated software, firmware, and hardware teams to expand IoT device integrations, strengthening platform interoperability and supporting broader customer adoption within the MyQ ecosystem.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Led the product roadmap for Emerson's telemetry analytics platform, prioritizing scalable MVP features that balanced customer customization with broad adoption, improving platform scalability and reducing custom development by 99%.
- Directed cross-functional collaboration with executives, engineers, and customers to align analytics and API product strategies, enhancing stakeholder visibility and driving platform growth through customer-driven prioritization.
- Launched a new enterprise analytics product generating over \$200K in revenue by defining MVP scope and integrating customer insights, establishing a scalable, user-focused analytics offering for diverse enterprise clients.
- Improved customer retention by 15% through prioritizing user experience enhancements and actionable reporting features that increased platform adoption and demonstrated clear operational value to enterprise customers.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Led product strategy to expand LITET's portfolio by launching bundled offerings that grew to 90% of revenue, driving adoption through data-informed customer demand insights and iterative experimentation.

- Developed scalable internal platforms integrating multi-warehouse inventory and fulfillment workflows, enhancing operational coordination and enabling proactive replenishment planning across diverse sales channels.
- Collaborated with cross-functional teams and stakeholders to prioritize roadmap features, balancing technical scalability with customer needs to optimize product usability and support strategic growth initiatives.
- Designed AI-powered analytics agents and KPI dashboards that streamlined decision-making, supporting pricing, advertising, and bundle strategies that increased revenue by 400% year-over-year.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Directed product portfolio management for 1000+ industrial motion SKUs, aligning pricing, forecasting, and supplier coordination to enhance product availability and support scalable market growth.
- Launched and scaled a new industrial branch, building cross-functional teams and operational workflows that exceeded revenue targets by 15% within the first year.
- Secured exclusive national distribution rights through strategic vendor negotiations and technical enablement, establishing long-term partnerships and expanding company market positioning.
- Facilitated collaboration between engineering teams and industrial customers to deliver tailored technical support, strengthening vendor relationships and ensuring successful product implementation.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Led cross-functional collaboration with distributors and industrial customers to align product availability with maintenance schedules, enhancing operational readiness and supporting strategic maintenance planning initiatives.
- Developed and delivered tailored technical training programs for customers and distributors, improving product adoption and strengthening engagement through focused education on installation and ROI analysis.
- Supported strategic manufacturing accounts by providing technical product guidance and operational planning, reinforcing reliability and fostering long-term relationships with key customers like Disney and Universal.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
