SUMMARY

Experienced product manager driving platform strategy and roadmap ownership to enhance user engagement and scalability. Proven success leading cross-functional teams to deliver impactful dashboard and analytics solutions that increase adoption and revenue while aligning diverse stakeholders.

CORE SKILLS

Product Strategy • Roadmap Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Owned and prioritized the MyQ Community platform roadmap using Agile and RICE methods, coordinating cross-functional teams to improve feature delivery and sprint execution for enhanced platform scalability.
- Led user experience improvements by identifying and resolving friction points through collaboration with UX and engineering, increasing customer satisfaction and platform adoption by 15%.
- Developed executive dashboards integrating onboarding, engagement, and IoT device metrics, enabling data-driven roadmap decisions and improving visibility for senior leadership across 100+ communities.
- Coordinated software, firmware, and hardware teams to expand IoT device support within the MyQ platform, enhancing platform scalability and supporting broader customer adoption.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Owned and prioritized the MyQ Community platform roadmap using Agile and RICE methods, balancing customer needs with technical scalability to drive platform adoption and streamline product execution.
- Led scalable MVP strategy for telemetry analytics, reducing custom development by focusing on summary-level reporting that met 80% of enterprise customer requirements.
- Collaborated closely with engineering, UX, and customer teams to enhance user experience, addressing friction points and improving customer satisfaction across platform features.
- Influenced analytics and API product roadmaps through executive engagement and customer discovery, aligning stakeholder priorities to support platform growth and operational scalability.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Owned and prioritized the product roadmap for LITET's e-commerce platform, driving scalable bundle strategies that grew 3-pack and 6-pack products to 90% of revenue and improved operational efficiency.
- Collaborated closely with engineering, UX, and business teams to refine product offerings and user experience, leveraging customer interviews and feedback to enhance product-market fit and adoption.
- Led development of internal operational platforms integrating multi-warehouse inventory, forecasting, and fulfillment workflows, enabling scalable inventory management without costly ERP investments.

- Influenced strategic growth decisions by integrating AI-powered automation and data-driven insights, reducing manual reporting by 80% and accelerating PPC optimization for sustained revenue growth.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Directed product lifecycle and inventory planning for 1000+ industrial motion SKUs, enhancing availability and supporting scalable growth in automation product lines.
- Launched and scaled a new industrial branch, building cross-functional teams and operational workflows that exceeded revenue targets by 15% within the first year.
- Negotiated and secured exclusive THK distribution rights for Colombia through strategic vendor partnerships, technical training, and market development initiatives.
- Coordinated technical support between engineering teams and industrial customers, improving application success and strengthening vendor relationships across complex stakeholder groups.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Led cross-functional collaboration with distributors and industrial customers to align product availability with maintenance schedules, enhancing platform reliability and operational readiness for strategic accounts.
- Developed and delivered targeted technical training programs, improving customer adoption and engagement by strengthening understanding of product benefits and operational efficiencies.
- Supported industrial applications across key manufacturing sectors, driving product strategy that balanced technical requirements and customer needs to strengthen strategic relationships and operational support.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
