SUMMARY

Experienced product leader with a track record of owning roadmap strategy and execution for complex platform products, including IoT and analytics dashboards. Skilled at driving user engagement and scalability through data-informed prioritization, cross-functional collaboration, and stakeholder alignment.

CORE SKILLS

Product Strategy • Roadmap Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Directed roadmap prioritization and Agile sprint execution for MyQ Community platform, enhancing feature delivery and backlog management across frontend, backend, and QE teams.
- Led cross-functional collaboration among software, firmware, hardware, UX, and analytics teams to align product initiatives and expand IoT device integrations, improving platform scalability and adoption.
- Partnered with UX and engineering to identify and resolve user friction points, driving a 10-point NPS increase and strengthening overall platform engagement.
- Analyzed onboarding workflows and user behavior to prioritize improvements, boosting onboarding efficiency by 15% across 100+ communities and supporting sustained platform growth.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Directed cross-functional teams to define and execute a scalable telemetry analytics platform roadmap, balancing customization with broad customer needs to enhance platform adoption and reduce development overhead.
- Spearheaded customer-driven prioritization and stakeholder alignment initiatives, translating diverse enterprise requirements into a unified, scalable product strategy that improved executive visibility and roadmap focus.
- Led API integration improvements that simplified enterprise onboarding and increased adoption by 35%, strengthening platform scalability and customer engagement across IoT telemetry solutions.
- Developed and launched customer-facing analytics capabilities that generated \$200K+ in new revenue while expanding platform usage and reinforcing a customer-centric product vision.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Owned and executed product roadmap for multi-channel inventory and fulfillment platform, integrating local warehouses, Amazon FBA, AWD, and distributor consignments to enhance operational scalability and coordination.
- Led customer-driven product design through iterative interviews and testing, refining product fit, materials, and minimalist design to improve market alignment and adoption.

- Developed AI-powered automation workflows combining telemetry data and Python to streamline PPC bid optimization and sales reporting, reducing manual effort by 80% and accelerating decision-making.
- Directed bundle strategy by analyzing customer purchasing patterns and profitability, launching 3-pack and 6-pack configurations that grew to 90% of total revenue and optimized product mix.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Directed cross-functional teams to launch and scale a new industrial branch, achieving profitability within 12 months and exceeding revenue targets by 15%, enhancing operational workflows and customer engagement.
- Owned product lifecycle management for a portfolio of 1000+ SKUs, aligning pricing, inventory, and supplier coordination to improve product availability and support scalable industrial automation growth.
- Led strategic negotiations and technical enablement initiatives to secure exclusive national distribution rights, establishing long-term vendor partnerships and strengthening market positioning.
- Facilitated collaboration between engineering teams and industrial customers to deliver tailored technical support, improving application success and reinforcing stakeholder alignment across vendors and clients.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Led cross-functional initiatives to align product availability with customer maintenance schedules, enhancing operational readiness and supporting scalable inventory planning across Central/North Florida and South Georgia.
- Developed and delivered tailored technical training programs for industrial customers and distributors, boosting product adoption and strengthening engagement through improved understanding of operational benefits.
- Collaborated with strategic manufacturing clients like Disney and Universal to support industrial application needs, improving product selection and operational reliability through targeted technical and operational guidance.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
