## SUMMARY

---

Product leader with proven platform strategy and roadmap ownership, driving scalable analytics products that enhance user engagement and executive decision-making. Experienced collaborating across engineering, design, and leadership to prioritize features and governance, improving usability and adoption in complex technical environments.

## CORE SKILLS

---

Product Strategy • Roadmap Strategy

## TECHNICAL TOOLS

---

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

## EXPERIENCE

---

### CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Established a RICE-based prioritization framework that enhanced roadmap transparency, sprint planning, and stakeholder alignment across product, engineering, and support teams for the MyQ Community platform.
- Coordinated cross-functional planning among software, firmware, hardware, UX, and analytics teams, improving delivery alignment and expanding IoT device integrations to support platform scalability.
- Prioritized customer-driven roadmap improvements by analyzing onboarding and engagement data, increasing platform adoption by 15% across 100+ communities and enhancing user activation workflows.
- Developed executive dashboards consolidating IoT device and user engagement metrics, enabling VP-level stakeholders to make data-driven decisions that supported strategic platform growth and feature prioritization.

### EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined and prioritized a scalable telemetry analytics platform roadmap, balancing customer customization requests with engineering capacity to reduce custom development to 1% and cover 80% of enterprise needs.
- Launched a customer-facing analytics product that generated over \$200K in new revenue by converting telemetry data into actionable insights, expanding platform adoption and creating a repeatable product offering.
- Influenced cross-functional roadmap strategy by collaborating with executives, engineers, and customers to align analytics and API priorities, enhancing platform scalability and executive visibility into customer requirements.
- Simplified enterprise API integrations and onboarding workflows, increasing API adoption by 35% and improving customer experience for telemetry data platforms in complex IoT environments.

### LITET

Technical Product & Analytics Lead | 2023 - Present

- Defined and executed a scalable product strategy integrating multi-channel inventory and fulfillment systems, improving inventory rotation from 1x to 4x and enabling proactive replenishment planning across warehouses.
- Built custom internal platforms using Python and Streamlit to replace fragmented workflows, centralizing inventory management and eliminating operational inconsistencies across Amazon FBA, AWD, and distributor

channels.

- Prioritized and launched bundled product configurations based on customer demand and profitability analysis, driving 90% of revenue from 3-pack and 6-pack bundles and enhancing average order value.
- Collaborated cross-functionally with engineering, design, and leadership to implement AI-powered workflows automating PPC optimization and sales reporting, reducing manual effort by 80% and improving decision-making speed.

## **LUGO HERMANOS**

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Established exclusive THK distribution rights in Colombia by developing technical training and sales enablement programs, securing a 15+ year strategic partnership and expanding market presence.
- Scaled a new industrial branch to profitability within 12 months by building cross-functional teams and optimizing operational workflows, exceeding revenue targets by 15%.
- Coordinated technical support and vendor collaboration with THK and Thomson engineering teams, enhancing customer application success and strengthening supplier relationships.
- Optimized product lifecycle management for 1000+ SKUs, aligning pricing, forecasting, and supplier coordination to improve availability and support industrial automation growth.

## **REGAL REXNORD**

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Coordinated cross-functional planning with distributors and industrial customers to align inventory availability with maintenance schedules, enhancing operational readiness and supporting strategic maintenance initiatives.
- Delivered tailored technical training programs to over 30 customer teams monthly, boosting product adoption and strengthening distributor engagement through focused enablement on industrial applications.
- Supported strategic manufacturing accounts by providing technical guidance on industrial component selection and operational planning, improving customer support and reinforcing reliability in complex industrial environments.

## **EDUCATION**

---

### **FLORIDA INTERNATIONAL UNIVERSITY**

Master of Business Administration (MBA) | 2018

### **FLORIDA INTERNATIONAL UNIVERSITY**

Bachelor of Science (BS) in Mechanical Engineering | 2010
