SUMMARY

Experienced product manager with a track record of defining and executing scalable platform strategies that balance customer customization and usability. Skilled at driving roadmap ownership and cross-functional alignment to enhance user engagement and product adoption in complex technical ecosystems.

CORE SKILLS

Product Strategy • Roadmap Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined a scalable telemetry analytics platform strategy that balanced customer customization with engineering capacity, improving platform scalability and reducing custom development overhead to 1%.
- Established MVP boundaries prioritizing reusable capabilities, covering 80% of enterprise customer needs and accelerating delivery by limiting complex custom requests.
- Influenced cross-functional roadmap priorities by collaborating with executives, engineering, and strategic customers, aligning scalable platform development with enterprise requirements.
- Launched a customer-facing analytics product leveraging telemetry data, generating over \$200K in new revenue and expanding platform adoption through a repeatable, scalable offering.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Established a RICE-based prioritization framework to clarify roadmap decisions, enhancing sprint planning and aligning product, engineering, and support teams around scalable platform initiatives.
- Coordinated cross-functional planning across software, firmware, hardware, UX, and analytics teams, improving delivery alignment and supporting expanded IoT device integrations.
- Prioritized customer-driven roadmap improvements by analyzing onboarding and engagement data, increasing platform adoption by 15% and supporting growth across 100+ communities.
- Partnered with UX and engineering teams to address user friction points, boosting customer satisfaction with a +10 point NPS improvement and strengthening platform engagement.
