SUMMARY

Senior Product Manager with proven success owning AI-powered inventory management roadmaps that simplify complex workflows into scalable SaaS solutions, driving inventory visibility, operational efficiency, and revenue growth for SMB and industrial clients. Skilled in cross-functional collaboration and customer discovery to balance strategic vision with execution.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built a multi-warehouse AI-powered inventory forecasting platform integrating Amazon FBA, AWD, and local warehouses, improving inventory rotation from 1x to 4x and enabling proactive replenishment planning.
- Automated purchase order planning by developing SKU-level reorder models incorporating vendor lead times, MOQ optimization, and freight costs, enhancing replenishment accuracy and SKU reorder automation.
- Designed lightweight internal operational systems as ERP alternatives, streamlining inventory and fulfillment workflows to support operational scalability and process standardization without heavy infrastructure investment.
- Conducted customer-driven product discovery and iterative testing cycles, refining product design and positioning to improve market fit and support successful adoption in complex operational environments.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined scalable AI-driven inventory platform roadmaps by prioritizing reusable capabilities that addressed 80% of customer needs while reducing custom development requests to 1%, enhancing operational efficiency and scalability.
- Translated complex customer requirements into simplified, scalable product features through extensive discovery and stakeholder alignment, balancing custom telemetry demands with platform-wide automation goals.
- Established MVP boundaries focusing on high-frequency inventory replenishment and workflow automation needs, accelerating delivery and improving platform scalability for SMB and industrial clients.
- Influenced cross-functional teams and executives by integrating customer insights and technical constraints into AI-powered inventory management strategies, driving measurable revenue growth and operational improvements.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Prioritized and executed AI-driven inventory management features by implementing Agile backlog planning with RICE methodology, enhancing sprint completion and aligning product delivery with strategic roadmap goals.

- Coordinated cross-functional teams across software, firmware, hardware, UX, and data science to streamline complex operational workflows, enabling scalable AI-powered inventory forecasting and replenishment solutions.
- Facilitated stakeholder alignment and integrated multi-disciplinary engineering efforts, improving product delivery synchronization and supporting expansion of intelligent inventory automation capabilities for SMB and industrial clients.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Coordinated cross-functional planning with distributors and industrial customers to align AI-driven inventory availability with maintenance schedules, enhancing operational readiness and supporting strategic maintenance planning initiatives across Central/North Florida and South Georgia.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
