SUMMARY

Product manager with proven success building AI-powered agentic workflows that automate complex decision-making and improve operational efficiency. Experienced leading cross-functional teams to deliver scalable, user-centric AI tools that align product vision with trust and safety priorities.

CORE SKILLS

Product Strategy • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Built AI-powered agentic workflows integrating sales, advertising, and inventory data using OpenAI APIs and Python, reducing manual reporting effort by 80% and accelerating decision-making across marketplaces.
- Automated PPC bid optimization with AI-generated recommendations, enhancing keyword prioritization and improving advertising efficiency to consistently meet target TACOS of 20%.
- Collaborated cross-functionally with engineering and data teams to define scalable AI-driven decision-support tools that streamline complex operational workflows and improve business outcomes.
- Validated user-centric product features through customer interviews and iterative testing, refining design and positioning to ensure strong product-market fit and successful adoption.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined a scalable telemetry analytics platform strategy that balanced enterprise customer needs with engineering capacity, reducing custom development requests to 1% and enhancing platform scalability for 80% customer coverage.
- Synthesized diverse customer requirements into reusable, scalable capabilities, improving roadmap alignment and accelerating delivery of AI-powered workflows that automate complex operational processes.
- Influenced cross-functional roadmap priorities by collaborating with executives, engineers, and strategic customers, ensuring product vision aligned with scalable platform growth and user-centric decision-support tools.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Prioritized and delivered AI-driven features for the MyQ Community platform using Agile and RICE methodology, enhancing user workflows and improving sprint completion rates.
- Coordinated cross-functional teams across software, firmware, hardware, UX, and analytics to align product vision and accelerate delivery of integrated IoT solutions.
- Collaborated with UX and engineering to identify and resolve user friction points, boosting platform engagement and increasing NPS by 10 points through targeted experience improvements.

- Analyzed onboarding and engagement data to refine the product roadmap, driving a 15% increase in platform adoption and supporting growth across 100+ communities.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
