SUMMARY

Product manager with hands-on experience building AI-enabled workflows using OpenAI APIs to deliver decision-support tools that improve operational efficiency and user engagement. Skilled at translating customer needs into scalable platform capabilities through cross-functional collaboration.

CORE SKILLS

Product Strategy • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Orchestrated AI-powered analytics agents using OpenAI APIs to automate sales and PPC reporting, cutting manual effort by 80% and enabling daily KPI monitoring across Amazon and Shopify channels.
- Orchestrated AI-powered PPC workflows integrating Python KPIs with OpenAI recommendations, scaling keyword prioritization and bid optimization to improve decision consistency and achieve a 20% TACOS target.
- Built lightweight internal tooling to replace ERP, scaling inventory from 9 to 15 SKUs and standardizing fulfillment workflows to support operational growth without heavy platform investment.
- Centralized inventory operations by launching a custom platform with Streamlit and Hugging Face Spaces, eliminating fragmented workflows and reducing inventory errors by 100% across warehouses and FBA channels.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized customer telemetry requests into scalable platform requirements, reducing custom solutions to 1% and improving roadmap alignment and product delivery scalability across 80% of enterprise users.
- Owned roadmap for telemetry analytics platform, prioritizing reusable capabilities that met 80% of enterprise customer needs, cut custom solutions to 1%, and boosted scalability while aligning engineering capacity.
- Orchestrated executive and customer collaboration to prioritize analytics and API roadmap, aligning platform scalability with user needs and enhancing executive insight into customer-driven product strategy.
- Simplified enterprise REST API integrations and onboarding workflows, boosting IoT telemetry platform adoption by 35% and enhancing customer integration experience.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Defined and implemented a RICE-based prioritization framework for MyQ Community platform, enhancing roadmap transparency, sprint planning discipline, and cross-team stakeholder alignment on product priorities.
- Orchestrated cross-team execution plans uniting software, firmware, hardware, UX, and analytics to advance MyQ Community platform, enhancing IoT integrations and product delivery alignment.

- Prioritized onboarding and engagement enhancements on the MyQ Community platform, driving 15% adoption growth and supporting expansion across 100+ communities through customer-led roadmap decisions.
