SUMMARY

Product manager with hands-on experience building scalable AI-enabled workflows using OpenAI APIs that automate decision support and operational tasks, driving efficiency and user engagement. Skilled in cross-functional collaboration to translate complex AI capabilities into user-centric products with measurable business impact.

CORE SKILLS

Product Strategy • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Engineered AI-powered analytics agents leveraging OpenAI APIs to automate multi-channel sales and PPC workflows, slashing manual reporting time by 80% and enabling daily KPI-driven decision-making.
- Orchestrated AI-powered PPC optimization workflows integrating Python KPIs with OpenAI recommendations, boosting decision consistency and scaling keyword prioritization to achieve targeted 20% TACOS efficiency.
- Engineered a lightweight internal platform replacing ERP systems, automating inventory and fulfillment workflows to scale operations and standardize processes amid SKU growth from 9 to 15.
- Consolidated fragmented inventory workflows into a centralized platform using AI-enabled tooling, eliminating errors and boosting operational visibility across warehouses and fulfillment channels.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Orchestrated executive and customer collaboration to align analytics and API roadmap priorities, enhancing platform scalability and executive insight into user-driven product strategy.
- Synthesized diverse customer telemetry needs into scalable platform capabilities, boosting roadmap focus and cutting custom development requests to 1% while satisfying 80% of enterprise users.
- Spearheaded roadmap strategy for telemetry analytics, delivering reusable platform capabilities that met 80% of enterprise needs, slashed custom development to 1%, and enhanced scalability for AI-powered workflows.
- Simplified enterprise REST API integrations and streamlined onboarding, driving a 35% surge in adoption that expanded IoT telemetry analytics platform usage and strengthened customer trust in AI-powered workflows.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Introduced a RICE-based prioritization framework that unified stakeholder input and streamlined sprint planning, enhancing roadmap transparency and accelerating delivery cadence for the MyQ Community platform.
- Orchestrated cross-disciplinary collaboration among software, firmware, hardware, UX, and analytics teams to synchronize MyQ Community platform initiatives, accelerating IoT device integration and enhancing product delivery alignment.

- Orchestrated cross-disciplinary collaboration among software, firmware, hardware, UX, and analytics teams to unify platform execution, accelerating IoT integrations and enhancing product delivery alignment.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
