SUMMARY

Product manager with experience building AI-enabled workflows and decision-support tools that integrate complex data into scalable, user-centric operational systems. Skilled in cross-functional collaboration and strategic roadmap prioritization to balance technical complexity and business impact.

CORE SKILLS

Product Strategy • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered agents that automated sales reporting and PPC bid analysis, cutting manual effort by 80% and enabling daily monitoring across multiple marketplaces.
- Created AI-assisted workflows combining Python calculations with OpenAI-generated recommendations to improve PPC keyword prioritization and bid optimization, enhancing decision consistency and advertising efficiency.
- Designed and implemented lightweight internal operational tools to replace ERP systems, supporting inventory management and fulfillment workflows that scaled SKU handling from 9 to 15.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives and engineering teams to prioritize analytics and API roadmap features, enhancing alignment with customer needs and improving executive visibility.
- Conducted extensive customer interviews to distill complex, custom telemetry requests into scalable platform capabilities, reducing bespoke development to 1% while covering 80% of customer needs.
- Defined MVP scope for analytics products by focusing on reusable, high-demand features, accelerating delivery and improving platform scalability.
- Increased enterprise API adoption by 35% through targeted enhancements and simplifying integration workflows, boosting platform usage and customer onboarding.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Established a RICE-based prioritization framework for the MyQ Community roadmap, enhancing transparency and aligning product, engineering, and support teams on feature and platform priorities.
- Coordinated cross-disciplinary planning and delivery across software, firmware, hardware, UX, and analytics teams, improving integration and execution for connected-device initiatives.
- Facilitated shared execution plans and clarified dependencies among engineering and product stakeholders, strengthening collaboration and accelerating platform development efforts.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
