SUMMARY

Experienced product manager with hands-on delivery of AI-enabled workflows and operational tooling that streamline support and inventory processes. Skilled in customer discovery and balancing customization with scalable platform roadmaps to drive adoption and measurable business impact.

CORE SKILLS

Product Strategy • IoT Platforms • APIs • Telemetry Analytics • Forecasting Systems • Roadmap Strategy • Hardware/Software Collaboration • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents that automated sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational monitoring across Amazon and Shopify channels.
- Created a custom inventory management platform consolidating warehouse, FBA, AWD, and distributor consignments, eliminating fragmented workflows and achieving 100% reduction in inventory errors.
- Designed internal operational tooling as a lightweight alternative to ERP systems, supporting inventory management and fulfillment workflows that scaled SKU handling from 9 to 15 without ERP investment.
- Integrated multi-channel inventory tracking across local warehouses, Amazon FBA, AWD, and distributors, enhancing fulfillment coordination and reducing inconsistencies across five distribution partners.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized diverse customer requirements into scalable telemetry platform features, reducing custom development requests to 1% while covering 80% of user needs.
- Prioritized summary-level analytics and reusable API capabilities to streamline the MVP scope, accelerating delivery and enhancing platform scalability.
- Increased enterprise API adoption by 35% through simplifying integration workflows and improving onboarding experiences for telemetry data platforms.
- Collaborated with executives and engineering teams to align roadmap priorities with customer value, balancing customization pressures against scalable product development.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Developed executive dashboards consolidating onboarding, community engagement, and IoT device metrics, enhancing leadership's insight into platform adoption across 100+ communities and informing strategic roadmap decisions.
