SUMMARY

Product manager with experience building AI-enabled workflows that automate support and operational tooling, improve adoption, and enable data-driven decisions. Skilled in customer discovery and platform strategy to deliver scalable, reusable capabilities across complex enterprise environments.

CORE SKILLS

Product Strategy • IoT Platforms • APIs • Telemetry Analytics • Forecasting Systems • Roadmap Strategy • Hardware/Software Collaboration • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents that automated sales reporting and PPC bid analysis, cutting manual effort by 80% and enabling daily performance monitoring across multiple marketplaces.
- Created a centralized inventory management platform that replaced fragmented workflows, eliminating errors and improving consistency for warehouse and fulfillment operations.
- Designed and implemented custom operational tooling to support inventory and fulfillment processes, enabling scalable coordination without relying on costly ERP systems.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized diverse customer requirements into scalable telemetry analytics features, reducing custom development requests to 1% while covering 80% of user needs.
- Translated recurring enterprise workflows into reusable API and reporting capabilities, expanding platform adoption and aligning product roadmap with customer priorities.
- Balanced roadmap tradeoffs to prioritize summary-level analytics over bespoke solutions, accelerating delivery and enhancing platform scalability.
- Collaborated with executives and engineering to shape product roadmap, improving alignment between customer demands and scalable platform development.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Prioritized and refined the MyQ Community platform roadmap using RICE methodology, coordinating cross-functional teams to improve sprint delivery and feature completion.
- Boosted platform adoption by 15% through data-driven enhancements to onboarding and engagement workflows, supporting growth across 100+ communities.
- Collaborated with UX and customer-facing teams to address friction points, raising customer satisfaction by 10 NPS points and strengthening user engagement.
