SUMMARY

Product manager with hands-on experience launching and scaling consumer e-commerce products through customer discovery and data-driven experimentation, driving 400% revenue growth and multi-channel adoption—well suited to lead Instacart's Health shopping experience from concept to scale.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Scaled LITET's DTC commerce by integrating product experimentation, channel strategy, and PPC optimization, achieving 400% revenue growth and quadrupling ROAS across Amazon, Shopify, and distributor channels.
- Validated product-market fit through over 20 cyclist interviews and iterative testing cycles, refining sock design, materials, pricing, and positioning to boost adoption and customer reviews.
- Launched and optimized bundled product offerings based on customer purchasing patterns and profitability analysis, growing 3-pack bundles to 75% and 6-pack bundles to 15% of total revenue.
- Improved marketplace performance by applying data-driven pricing and assortment experiments, enhancing product mix and increasing average order value while expanding distributor partnerships.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Launched a customer-facing analytics product by defining MVP scope and aligning engineering with user needs, generating over \$200K in new revenue and expanding product adoption.
- Conducted in-depth customer discovery to identify common workflow patterns, transforming one-off requests into reusable analytics and API capabilities that reduced custom development and increased platform use.
- Collaborated with executives and engineering teams to prioritize the analytics and API roadmap, improving alignment with customer requirements and enhancing executive visibility into product strategy.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Increased MyQ Community platform adoption by 15% through prioritizing user experience improvements based on customer feedback and product usage analysis.
- Enhanced onboarding workflows across 100+ communities, boosting new user activation by 15% and improving engagement visibility through targeted process refinements.
- Coordinated cross-functional teams across software, firmware, hardware, UX, and analytics to align delivery plans and support expanded IoT integrations for the MyQ platform.
