SUMMARY

Product manager with hands-on experience building AI-enabled workflows and analytics platforms that optimize multi-channel digital funnels and operational reporting. Skilled at aligning product roadmaps with customer needs to drive scalable growth through cross-functional collaboration in complex environments.

CORE SKILLS

Product Strategy • APIs • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered workflows integrating sales and advertising data to automate PPC bid analysis and sales reporting, reducing manual effort by 80% and accelerating daily decision-making.
- Created daily KPI reporting systems tracking ROAS and product bundle performance, enabling data-driven pricing and marketing experiments that increased revenue share to 75%.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized customer interviews into scalable telemetry reporting features, reducing custom development requests to 1% and improving product delivery focus.
- Prioritized reusable API capabilities by identifying common enterprise workflows, expanding platform adoption and aligning roadmap with high-value customer needs.
- Defined MVP scope emphasizing summary-level reporting to cover 80% of customer requirements, accelerating delivery and enhancing platform scalability.
- Increased REST API adoption by 35% through simplifying integrations and streamlining onboarding, boosting customer engagement with telemetry analytics.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Implemented RICE prioritization to clarify roadmap decisions, improving sprint planning and aligning product, engineering, and support teams around key platform features.
- Prioritized platform improvements based on user behavior and feedback, boosting adoption by 15% and enhancing engagement through targeted product enhancements.
- Coordinated cross-functional teams to deliver customer-facing features on a two-week sprint cycle, increasing feature completion and backlog prioritization efficiency.
