SUMMARY

Product manager with hands-on experience managing industrial motion product portfolios and launching technology-enabled solutions. Skilled in customer discovery, pricing strategy, and cross-functional execution to drive profitable growth and optimize operations in manufacturing environments.

CORE SKILLS

Product Strategy • Forecasting Systems • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Oversaw pricing, inventory planning, and technical support for a portfolio exceeding 1,000 industrial motion SKUs, enhancing product availability and supporting growth in automation lines.
- Established and scaled a new industrial sales branch, building a 12-person team and surpassing revenue targets by 15% within the first year.
- Facilitated collaboration between engineering teams and customers to deliver specialized technical guidance, strengthening vendor relationships and improving application success.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Launched customer-facing analytics capabilities by defining MVP scope and aligning engineering with customer requirements, generating over \$200K in new revenue and expanding product adoption.
- Conducted extensive customer interviews to translate diverse telemetry reporting requests into scalable, reusable platform features, reducing custom development to 1% and improving roadmap focus.
- Identified common enterprise workflows through discovery sessions, converting them into standardized analytics and API capabilities that enhanced platform adoption and aligned product strategy with customer needs.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Conducted over 20 customer interviews and iterative testing cycles with manufacturing partners to refine product fit, materials, and design, validating pricing strategy and enhancing product-market fit.
- Improved product assortment and average order value by experimenting with bundled configurations, resulting in 75% of revenue from 3-pack bundles and 15% from 6-pack bundles.
- Drove a 400% year-over-year revenue increase by optimizing pricing, listings, and PPC campaigns across Amazon and Shopify marketplaces, boosting ROAS from 1.2 to 4.0.
- Collaborated closely with customers and vendors through multiple design iterations to balance performance, comfort, and minimalist aesthetics, supporting a successful product launch.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Enhanced onboarding workflows and engagement tracking for MyQ Community users across 100+ communities, boosting onboarding efficiency by 15% and increasing user activation visibility.
