## SUMMARY

---

Industrial product manager with extensive experience managing 1000+ SKU portfolios, securing exclusive vendor partnerships, and leading new branch operations. Skilled in technical enablement and cross-functional collaboration, positioned to drive profitable growth of Stanley Black & Decker's Power Tool Accessory portfolio.

## CORE SKILLS

---

Product Strategy • APIs • Operational Automation

## TECHNICAL TOOLS

---

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

## EXPERIENCE

---

### LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Secured exclusive THK distribution rights for Colombia by developing technical training programs, coordinating inventory commitments, and driving business development initiatives, establishing a 15+ year strategic vendor partnership.
- Oversaw a portfolio of 1000+ industrial motion SKUs, optimizing pricing, inventory, and supplier coordination to enhance product availability and support market growth.
- Launched and scaled a new industrial sales branch, building a 12-person team and surpassing revenue targets by 15% within the first year.
- Facilitated technical collaboration between THK and Thomson engineering teams and customers, improving application support and strengthening vendor relationships.

### REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Delivered technical training to over 30 customer and distributor teams monthly, enhancing understanding of installation, lubrication, and ROI to boost product adoption and operational efficiency.
- Provided expert support for industrial applications in cooling towers, conveyors, and bucket elevators, strengthening relationships with strategic accounts including Disney and Universal.
- Coordinated maintenance-driven demand planning with distributors and customers across Central/North Florida and South Georgia, ensuring product availability aligned with operational schedules.

### EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Shaped product roadmap by integrating customer feedback with engineering capacity, prioritizing scalable telemetry analytics features that reduced custom development by 99% and improved platform focus.
- Conducted in-depth customer discovery to identify common workflow needs, translating them into reusable product capabilities that expanded platform adoption and aligned development with market demands.
- Defined MVP scope and coordinated cross-functional teams to launch new analytics features, generating over \$200K in revenue and establishing a scalable customer-facing product offering.

- Collaborated with executives and stakeholders to balance enterprise requirements and platform scalability, enhancing roadmap transparency and strengthening vendor and customer partnerships.
