SUMMARY

Product manager with hands-on experience building and scaling IoT telemetry and data platforms, driving reliable data pipelines and enterprise analytics. Skilled in cross-functional leadership and platform roadmap ownership, enabling scalable telemetry solutions that optimize operational performance.

CORE SKILLS

Product Strategy • IoT Platforms • APIs • Telemetry Analytics • Roadmap Strategy • Hardware/Software Collaboration • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed a centralized inventory management platform integrating local warehouses, Amazon FBA, AWD, distributors, and consignments, eliminating fragmented workflows and improving inventory accuracy by 100%.
- Created lightweight internal operational tools using Python and Streamlit to replace ERP systems, enabling scalable inventory and fulfillment processes while supporting SKU growth from 9 to 15.
- Consolidated multi-channel inventory tracking across diverse fulfillment environments, enhancing coordination and reducing inconsistencies across five distributor channels and major marketplaces.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Developed ETL workflows using Python and Azure to standardize inconsistent telemetry and trip data, enhancing data quality and enabling scalable enterprise analytics.
- Increased enterprise API adoption by 35% through customer-driven improvements that simplified integration and onboarding for telemetry analytics platforms.
- Balanced customer customization requests with platform scalability by prioritizing reusable telemetry analytics features, reducing custom development to 1% while covering 80% of customer needs.
- Launched a telemetry-based analytics product that generated over \$200K in new revenue and expanded platform adoption by defining MVP scope and aligning engineering with customer requirements.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Coordinated feature planning and delivery across software, firmware, hardware, UX, and analytics teams to expand IoT device integrations and improve product alignment.
- Prioritized and managed the MyQ Community platform roadmap using Agile and RICE methodology, enhancing sprint completion and backlog efficiency in two-week cycles.
- Established shared execution plans and clarified dependencies among engineering and product stakeholders, strengthening cross-functional collaboration for platform initiatives.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
