Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Scaled revenue 400% YoY and improved ROAS from 1.2 to 4.0 by optimizing pricing, channel strategy, and PPC campaigns across Amazon, Shopify, and distributor channels.
- Increased average order value by launching and testing 3-pack and 6-pack product bundles, which grew to represent 90% of total revenue and enhanced product mix profitability.
- Validated product-market fit through over 20 customer interviews and iterative testing cycles, refining product design, pricing, and positioning to support adoption and positive reviews.
- Combined customer insights with experimentation to optimize onboarding and activation, driving measurable improvements in conversion and customer engagement.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Improved onboarding workflows and user activation across 100+ MyQ communities, boosting onboarding efficiency by 15% and enhancing engagement visibility.
- Prioritized and delivered customer-driven roadmap enhancements that increased platform adoption by 15%, focusing on onboarding, engagement, and user experience improvements.
- Established a RICE-based prioritization framework to align stakeholders and streamline sprint planning, improving feature delivery and backlog management.
- Coordinated cross-functional teams to execute Agile development cycles, enhancing sprint completion rates and accelerating delivery of customer-facing platform features.
