SUMMARY

Product manager with hands-on experience using customer insights and experimentation to identify user pain points and improve engagement in consumer marketplaces. Led data-driven product and pricing optimizations that scaled e-commerce revenue 4x and enhanced user experience through iterative testing.

CORE SKILLS

Product Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Increased revenue 400% YoY and improved ROAS from 1.2 to 4.0 by optimizing pricing, listings, and PPC campaigns across Amazon and Shopify marketplaces.
- Conducted over 20 customer interviews and iterative product tests to refine product design, enhancing product-market fit and validating pricing strategies.
- Improved conversion rates and average order value by optimizing product pages, imagery, pricing, and bundle configurations based on customer behavior and profitability data.
- Launched and evaluated multi-pack bundles that grew to represent 90% of total revenue, boosting product mix and customer value through targeted experimentation.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Analyzed user behavior and customer feedback to identify friction points, driving a 15% increase in MyQ Community platform adoption and boosting user engagement.
- Introduced a RICE-based prioritization framework that clarified roadmap decisions, enhanced sprint planning, and aligned stakeholders across product, engineering, and support teams.
- Collaborated with UX and engineering teams to address key workflow pain points, resulting in a 10-point improvement in NPS and reduced user friction.
- Prioritized high-impact UX enhancements by synthesizing product usage data and customer insights, strengthening platform engagement and overall customer satisfaction.
