SUMMARY

Technically skilled product manager with hands-on experience managing Agile roadmaps, prioritizing backlogs using RICE, and collaborating with cross-functional and outsourced teams to deliver scalable, user-centered software. Applied AI-enabled workflows to automate analytics and enhance product functionality.

CORE SKILLS

Product Strategy • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Prioritized and refined the MyQ Community platform roadmap using RICE methodology, enhancing sprint feature completion and backlog clarity across frontend, backend, and QE teams.
- Instituted a structured prioritization framework that resolved competing stakeholder demands, boosting roadmap transparency and aligning product, engineering, and support teams.
- Coordinated two-week Agile sprint cycles, improving bug backlog management and release stability through disciplined sprint planning and cross-team collaboration.
- Facilitated cross-functional planning among software, firmware, hardware, UX, and analytics teams, delivering synchronized execution plans that expanded IoT device integrations and improved product alignment.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Conducted in-depth customer interviews to distill complex telemetry and reporting requests into scalable, reusable platform features, reducing custom development to 1% while covering 80% of customer needs.
- Translated recurring customer workflows into standardized analytics and API capabilities, enhancing platform adoption and aligning product development with broad user requirements.
- Collaborated with executives and engineering teams to prioritize roadmap initiatives that balanced enterprise demands with scalable product growth, improving stakeholder alignment and executive visibility.
- Defined MVP scope by prioritizing high-frequency reporting needs over customization, accelerating delivery timelines and focusing development on reusable, scalable product components.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered workflows integrating sales and advertising data to automate reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily performance monitoring.
- Combined Python-based KPI calculations with AI-generated recommendations to streamline PPC keyword prioritization and bid optimization, improving decision consistency and advertising efficiency.
- Designed and implemented custom operational tools for inventory management and fulfillment, replacing the need for ERP systems and supporting SKU growth from 9 to 15.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
