SUMMARY

Product manager with hands-on experience delivering operationally complex, real-time workflow platforms integrating multi-channel inventory and telemetry data. Built AI-enabled workflows to automate decision support and partnered closely with customers to translate needs into scalable, mission-critical solutions.

CORE SKILLS

Product Strategy • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed a multi-warehouse inventory forecasting platform that improved inventory rotation from 1x to 4x by converting bundle sales into accurate single-unit demand signals.
- Created a centralized inventory management system consolidating workflows across local warehouses, Amazon FBA, AWD, and consignments, eliminating fragmented processes and reducing inventory errors by 100%.
- Integrated multi-channel inventory tracking across fulfillment environments, enhancing coordination and reducing inconsistencies across Amazon, Shopify, and distributor channels.
- Designed lightweight internal operational tools as an ERP alternative, enabling scalable inventory and fulfillment workflows while supporting process standardization and SKU growth from 9 to 15.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized diverse customer requirements into scalable platform features, reducing custom development requests to 1% while covering 80% of user needs and streamlining the product roadmap.
- Balanced telemetry data visibility with summary-level analytics in MVP planning, prioritizing scalable solutions that improved platform adoption and minimized bespoke implementations.
- Delivered a customer-facing analytics product that generated over \$200K in new revenue by defining MVP scope and aligning engineering with client expectations.
- Boosted enterprise API adoption by 35% through targeted enhancements that simplified integrations and improved onboarding for telemetry data workflows.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Established and scaled a new industrial branch, building a 12-person team and integrating sales, operations, warehouse, and administrative functions to exceed revenue targets by 15% and achieve profitability within 12 months.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Coordinated cross-disciplinary feature planning and delivery across software, firmware, hardware, and UX teams to enhance IoT device integration and improve product alignment.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
