SUMMARY

Product manager with experience defining and executing AI/ML product strategy by translating complex capabilities into scalable, customer-centric solutions. Skilled in aligning stakeholders and leading roadmap decisions to deliver AI-enabled workflows that drive measurable business impact in enterprise and e-commerce settings.

CORE SKILLS

Product Strategy • Forecasting Systems • Agile Delivery • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Defined MVP scope for telemetry analytics by prioritizing summary-level reporting, covering 80% of customer needs while reducing custom development to 1%, accelerating delivery and improving platform scalability.
- Conducted customer discovery sessions to identify common workflows, translating one-off requests into reusable platform capabilities that enhanced roadmap alignment and reduced custom solutions.
- Balanced enterprise customer demands with engineering capacity to shape a scalable analytics platform roadmap, focusing on reusable features that minimized custom development and supported sustainable growth.
- Collaborated with executives and engineering teams to align analytics and API product roadmaps with customer priorities, increasing executive visibility and driving adoption of scalable product offerings that generated over \$200K in new revenue.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed Python-based AI workflows integrating sales, advertising, and inventory data to automate reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational monitoring across Amazon and Shopify channels.
- Collaborated with customers and manufacturing partners through iterative feedback cycles to refine product design, enhancing quality and customer satisfaction that supported the successful launch of LITET cycling socks.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Established a RICE-based prioritization framework to resolve competing stakeholder demands, enhancing roadmap transparency and sprint planning discipline for the MyQ Community platform.
- Coordinated cross-functional execution plans across software, firmware, hardware, UX, analytics, and QE teams, improving alignment and enabling expanded IoT device integrations.
- Directed backlog management and feature delivery using Agile methodologies, increasing sprint completion rates and streamlining prioritization for customer-facing platform enhancements.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
