SUMMARY

AI-native product manager with hands-on experience building and launching RAG-based knowledge assistants and AI-enabled workflows using OpenAI APIs. Skilled in stakeholder alignment and roadmap ownership, delivering scalable enterprise AI products that translate complex requirements into operational solutions.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered agents integrating sales, advertising, and inventory data to automate reporting and PPC bid analysis, cutting manual effort by 80% and enabling daily performance monitoring across multiple marketplaces.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant that cut technical product search time from 20 to 5 minutes, enabling sales and product teams to access accurate information with a 90% self-service rate.
- Established a comprehensive evaluation framework to assess AI-generated technical answers, reducing hallucination rates below 5% and enhancing trust through human-in-the-loop validation.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Shaped product roadmap priorities by collaborating with executives, engineering, and strategic customers, enhancing alignment between customer needs and scalable platform development.
- Translated complex customer requirements into reusable platform capabilities, reducing custom development requests to 1% while covering 80% of customer needs.
- Balanced telemetry data visibility and summary-level reporting in MVP strategy, improving platform scalability and prioritizing high-value customer features.
- Delivered a customer-facing analytics product that generated over \$200K in new revenue by defining MVP scope and aligning engineering with customer requirements.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Implemented RICE prioritization to clarify roadmap decisions for the MyQ Community platform, enhancing sprint planning and increasing stakeholder consensus across product, engineering, and support teams.
- Directed backlog management and feature delivery cycles, coordinating frontend, backend, and quality engineering teams to improve sprint completion rates and platform feature rollout.

- Facilitated cross-disciplinary collaboration among software, firmware, hardware, UX, and analytics teams, aligning dependencies and execution plans to support expanded IoT device integrations.
- Established shared execution frameworks that unified diverse technical and product stakeholders, improving coordination and accelerating delivery alignment for connected-device platform initiatives.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
