SUMMARY

Product manager with hands-on experience building AI-enabled workflows using OpenAI APIs to automate enterprise analytics and reporting. Skilled in translating complex customer needs into scalable platform capabilities and leading cross-functional teams to deliver customer-facing AI solutions that drive operational efficiency.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents leveraging OpenAI APIs and Python workflows to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational monitoring across multiple marketplaces.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Launched a scalable telemetry analytics product that generated over \$200K in new revenue and expanded platform adoption by converting customer data into actionable insights.
- Shaped product roadmap priorities through collaboration with executives and customers, balancing scalability with high-value enterprise requirements.
- Translated diverse customer workflows into reusable platform capabilities, reducing custom development and improving alignment with common enterprise needs.
- Defined MVP strategy prioritizing summary-level analytics to cover 80% of customer needs while minimizing bespoke solutions and enhancing platform scalability.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Introduced a RICE-based prioritization framework to clarify roadmap decisions, enhancing sprint planning and aligning product, engineering, and support teams around shared priorities.
- Coordinated cross-disciplinary planning among software, firmware, hardware, UX, analytics, and QE teams, improving delivery alignment and enabling expanded IoT device integrations.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) technical knowledge assistant that consolidated multiple product catalogs and documentation, reducing search time from 20 to 5 minutes and enabling 90% self-service completion for sales and product teams.
- Designed and implemented a comprehensive evaluation framework for AI-generated technical answers, establishing quality standards across five dimensions to limit hallucination rates below 5% and enhance user

trust through human review.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
