SUMMARY

AI-native Product Manager with hands-on experience building and launching generative AI and OpenAI API workflows for scalable enterprise platforms. Skilled at translating complex customer workflows into reusable AI-enabled decision-support tools, driving product strategy and stakeholder alignment.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Launched a scalable telemetry analytics product that generated over \$200K in new revenue by converting customer data into actionable insights and expanding platform adoption.
- Shaped the product roadmap by prioritizing reusable platform capabilities, reducing custom development requests to 1%, and covering 80% of customer needs to improve scalability.
- Translated complex customer workflows into standardized product features through extensive discovery sessions, enhancing roadmap alignment and broadening platform usage.
- Increased enterprise API adoption by 35% by simplifying REST API integrations and streamlining customer onboarding for telemetry data platforms.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents using OpenAI APIs and Python workflows to automate sales reporting and PPC bid analysis across Amazon and Shopify, cutting manual effort by 80% and enabling daily performance monitoring.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a RAG-based knowledge assistant that centralized technical product information from multiple catalogs and documentation, reducing search time from 20 to 5 minutes and enabling 90% self-service completion for sales and product teams.
- Designed an AI-assisted workflow for competitor-to-THK product matching that streamlined technical interchange analysis, cutting expected review time from 20 to 5 minutes and fostering reusable mapping logic to minimize senior product manager involvement.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Introduced a RICE-based prioritization framework to clarify roadmap decisions, enhancing sprint planning and unifying product, engineering, and support teams around shared priorities.
