SUMMARY

Technical product manager with hands-on experience building and deploying AI-enabled workflows using OpenAI APIs and RAG knowledge assistants to automate complex industrial and sales processes. Skilled in translating customer needs into scalable AI solutions through close collaboration with engineering and enterprise teams.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational monitoring across Amazon and Shopify channels.
- Created a centralized inventory management platform with Streamlit and Hugging Face Spaces, consolidating warehouse and consignment tracking to eliminate fragmented workflows and improve inventory accuracy by 100%.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant integrating multiple technical catalogs and documentation, reducing search time for sales and product teams from 20 to 5 minutes and enabling 90% self-service completion.
- Designed an AI-assisted interchange workflow to identify competitor product equivalents, creating reusable mapping logic that decreases dependency on senior product managers and aims to cut analysis time from 20 to 5 minutes.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives, engineers, and strategic customers to prioritize analytics and API roadmap features, enhancing alignment between customer needs and platform development.
- Conducted extensive customer interviews to translate diverse telemetry reporting requests into scalable, reusable platform capabilities, reducing custom solutions to 1% while covering 80% of customer needs.
- Defined MVP scope for analytics products by focusing on summary-level reporting and frequent customer requirements, accelerating delivery and minimizing complexity from customization.
- Balanced competing demands for customized analytics by prioritizing platform features that addressed common enterprise needs, improving scalability and reducing engineering overhead.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Secured exclusive THK distribution rights for Colombia by developing technical training programs, coordinating inventory commitments, and driving business development initiatives, establishing a 15+ year strategic partnership.
- Facilitated technical collaboration between THK, Thomson engineering teams, and industrial customers to enhance application support and resolve complex implementation challenges.
- Launched and scaled a new industrial sales branch, building a 12-person team and surpassing revenue targets by 15% within the first year.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Coordinated feature planning and delivery across software, firmware, hardware, UX, and analytics teams to align cross-functional efforts supporting IoT platform expansion and improve product integration.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
