SUMMARY

AI Product Manager with hands-on experience building AI-enabled workflows and RAG-based knowledge assistants that automate complex tasks and improve decision-making. Combines strong industrial product management background with technical delivery to drive scalable, impactful AI solutions end-to-end.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents using OpenAI APIs and Python to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational monitoring.
- Created a centralized inventory management platform with Streamlit and Hugging Face Spaces, consolidating warehouse and consignment workflows and eliminating fragmented processes.
- Collaborated with customers and manufacturing partners to refine product design through iterative feedback cycles, enhancing quality and supporting the successful launch of LITET cycling socks.
- Drove product and growth strategy across Amazon, Shopify, and distributor channels, increasing revenue 400% YoY and improving ROAS from 1.2 to 4.0 through experimentation and operational tooling.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant integrating multiple technical catalogs and internal guides, reducing search time from 20 to 5 minutes and enabling 90% self-service for sales and product teams.
- Designed an AI-assisted interchange workflow that identifies competitor product attributes and recommends THK equivalents, cutting analysis time by 75% and decreasing reliance on senior product managers.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives, engineers, and strategic customers to refine analytics and API roadmap priorities, enhancing alignment between customer needs and scalable platform development.
- Synthesized diverse customer telemetry and reporting requests into reusable, scalable product features, reducing custom development and accelerating roadmap execution.
- Identified common workflow patterns through customer discovery sessions, converting one-off requests into standardized analytics and API capabilities that expanded platform adoption.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Established a RICE-based prioritization framework for the MyQ Community platform, enhancing roadmap transparency and sprint planning discipline while aligning product, engineering, and support teams on priorities.
- Coordinated cross-functional execution plans across software, firmware, hardware, UX, analytics, and QE teams, improving delivery alignment and enabling expanded IoT device integrations.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Negotiated and secured exclusive THK distribution rights for Colombia by developing technical training and sales enablement programs, establishing a 15+ year strategic partnership and expanding market presence in linear motion products.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
