SUMMARY

Product manager with hands-on experience building AI-enabled workflows and RAG-based knowledge assistants that reduce manual effort and enhance decision support. Skilled in customer discovery and roadmap prioritization, enabling scalable AI product delivery aligned with enterprise needs.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • APIs • Forecasting Systems • Agile Delivery • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant that consolidated technical product information from multiple catalogs and documentation, reducing search time from 20 to 5 minutes and enabling 90% self-service completion for sales and product teams.
- Designed an AI-assisted interchange workflow to identify competitor product equivalents, incorporating reusable mapping logic that decreases dependency on senior product managers and targets a 75% reduction in analysis time.
- Created a comprehensive evaluation framework for AI-generated technical answers, establishing quality metrics across retrieval accuracy, citation reliability, and hallucination risk, with a goal to keep hallucination rates below 5%.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered workflows integrating sales, advertising, and inventory data to automate reporting and PPC bid analysis, cutting manual effort by 80% and enabling daily operational KPI monitoring.
- Conducted over 20 customer interviews and iterative testing cycles to refine product design and pricing, enhancing product-market fit and supporting successful adoption.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized diverse customer requirements into scalable platform capabilities, reducing custom development requests to 1% while covering 80% of customer needs and improving roadmap focus.
- Collaborated with executives and engineering teams to prioritize analytics and API roadmap initiatives, enhancing alignment between customer demands and platform scalability.
- Established MVP boundaries emphasizing reusable features over customization, accelerating delivery and strengthening product scalability across key customer segments.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Implemented RICE-based prioritization to clarify roadmap decisions for the MyQ Community platform, enhancing sprint planning and aligning product, engineering, and support teams.
- Coordinated cross-functional teams across software, firmware, hardware, UX, and analytics to synchronize delivery efforts and support expanded IoT device integrations.
- Prioritized platform improvements by analyzing user behavior and customer feedback, driving a 15% increase in adoption and stronger engagement with key features.
- Directed Agile backlog management and feature delivery for customer-facing and internal platform enhancements, improving sprint completion rates and backlog efficiency.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
