SUMMARY

Platform product manager experienced in translating complex customer requirements into scalable IoT telemetry and analytics capabilities. Skilled in roadmap prioritization and cross-functional coordination across software, firmware, hardware, and analytics teams. Built AI-enabled workflows automating operational reporting and decision support.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Forecasting Systems • Agile Delivery • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized diverse customer telemetry requests into scalable platform capabilities, covering 80% of needs while limiting custom solutions to 1%, improving roadmap focus and delivery efficiency.
- Balanced tradeoffs between raw data access and summary reporting to define MVP scope, reducing custom development by 99% and accelerating analytics platform rollout.
- Translated recurring customer workflows into reusable product features through targeted discovery sessions, enhancing platform adoption and reducing bespoke development.
- Collaborated with executives and engineering to align analytics and API roadmap priorities, ensuring scalable platform growth and clear visibility into customer requirements.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Established a RICE-based prioritization framework for the MyQ Community platform, enhancing roadmap transparency and aligning product, engineering, and support teams on feature delivery within two-week Agile sprints.
- Coordinated cross-disciplinary planning among software, firmware, hardware, UX, analytics, and quality engineering teams, improving delivery alignment and enabling expanded IoT device integrations.
- Directed backlog management and sprint execution for customer-facing platform features, increasing feature completion rates and streamlining prioritization across frontend, backend, and QE teams.
- Developed automated onboarding and engagement dashboards integrating Databricks and Power BI, boosting onboarding efficiency by 15% and enabling data-driven product decisions.

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered workflows integrating sales and advertising data to automate reporting and PPC bid analysis, cutting manual effort by 80% and enabling daily operational monitoring across multiple marketplaces.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
