SUMMARY

Product manager with hands-on experience building AI-enabled workflows that automate PPC optimization, inventory forecasting, and technical knowledge assistants, improving marketing and operational efficiency across e-commerce and industrial domains.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered workflows integrating sales, advertising, and inventory data to automate PPC bid analysis and daily operational reporting, reducing manual effort by 80% and improving decision speed.
- Created AI-assisted PPC optimization tools combining Python calculations with OpenAI recommendations, enhancing keyword prioritization and bid strategies to improve advertising efficiency and scalability.
- Designed and implemented lightweight internal systems for inventory management and fulfillment, enabling operational scalability without ERP investment and supporting process standardization.
- Conducted extensive customer interviews and iterative product testing to refine product design, pricing, and positioning, resulting in improved market fit and successful product adoption.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant that consolidated technical product information from multiple catalogs and internal guides, reducing search time from 20 to 5 minutes and enabling 90% self-service for sales and product teams.
- Designed an AI-assisted workflow to match competitor linear motion parts to THK equivalents, incorporating technical documentation and reusable mapping logic to cut interchange analysis time by 75% and decrease reliance on senior product managers.
- Established a comprehensive evaluation framework for AI-generated technical answers, defining criteria for retrieval and citation accuracy, hallucination mitigation, and human approval to ensure under 5% hallucination rate and build trust in AI-assisted workflows.

CHAMBERLAIN GROUP

Software Product Manager | June 2022 - October 2023

- Prioritized and delivered features for the MyQ Community platform by implementing Agile backlog management with RICE scoring, coordinating cross-functional teams to improve sprint completion and backlog efficiency.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives, engineers, and strategic customers to prioritize analytics and API product roadmap initiatives, enhancing alignment between customer needs and platform development.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
