SUMMARY

Technical product manager with hands-on experience building AI-enabled workflows and operational platforms that automate complex inventory forecasting, replenishment, and decision support across multi-channel supply chains and industrial environments, driving improved operational efficiency and customer outcomes.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed a centralized inventory management platform integrating local warehouses, Amazon FBA, AWD, and distributor consignments, eliminating fragmented workflows and reducing inventory errors by 100%.
- Created multi-warehouse forecasting and replenishment systems that converted bundle sales into accurate demand signals, increasing inventory rotation from 1x to 4x and enabling proactive purchasing decisions.
- Automated sales reporting and PPC bid analysis using AI workflows with OpenAI APIs, cutting manual effort by 80% and accelerating daily operational decision-making across Amazon and Shopify channels.
- Conducted over 20 customer interviews and iterative product testing to refine product design, pricing, and positioning, validating market fit and supporting successful adoption and review growth.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Designed an AI-assisted interchange workflow that reduced competitor-to-THK product matching time from 20 to 5 minutes, enabling sales and product teams to independently complete 90% of technical equivalence analyses with minimal expert involvement.
- Built a retrieval-augmented generation (RAG) knowledge assistant consolidating multiple technical catalogs and documentation, cutting search time from 20 to 5 minutes and improving self-service access to product information for sales and product teams.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Coordinated pricing, forecasting, and supplier alignment for a portfolio of 1000+ industrial motion SKUs, enhancing product availability and supporting growth in automation product lines.
- Negotiated and secured exclusive THK distribution rights for Colombia, establishing a 15+ year strategic partnership through technical training, inventory commitments, and market development initiatives.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives, engineers, and strategic customers to prioritize analytics and API roadmap features, enhancing alignment between customer needs and platform development.
