SUMMARY

Operations-focused product manager with hands-on experience delivering AI-enabled workflows and multi-warehouse inventory forecasting platforms that improve replenishment, visibility, and reporting automation—translating complex supply chain challenges into scalable, data-driven operational solutions.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • Forecasting Systems • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed a multi-warehouse inventory forecasting platform that converted bundle sales into single-unit demand signals, increasing inventory rotation from 1x to 4x and enabling proactive replenishment planning.
- Created AI-powered analytics agents automating sales reporting and PPC bid analysis across Amazon and Shopify, reducing manual effort by 80% and supporting daily operational decision-making.
- Built a centralized inventory management system consolidating local warehouses, FBA, AWD, and distributor consignments, eliminating fragmented workflows and improving inventory consistency.
- Designed automated PO planning tools incorporating vendor lead times, MOQ optimization, and freight cost modeling, enhancing replenishment accuracy and enabling SKU-level reorder automation.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized diverse customer requirements into scalable telemetry analytics features, reducing custom development requests to 1% while covering 80% of user needs.
- Balanced roadmap priorities by defining MVP scope focused on summary-level reporting, accelerating delivery and improving platform scalability.
- Collaborated with executives and engineering to align analytics and API roadmap strategies with customer value and scalability goals.
- Conducted targeted customer interviews to translate complex telemetry reporting demands into reusable product capabilities, enhancing delivery focus.

REGAL REXNORD

Account Executive — Data-Driven Sales | January 2014 - December 2016

- Collaborated with distributors and industrial customers to synchronize inventory availability with maintenance schedules, enhancing operational readiness and supporting maintenance planning across Central/North Florida and South Georgia.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant consolidating multiple technical catalogs and documentation, reducing search time from 20 to 5 minutes and enabling 90% self-service for sales and product teams.
- Designed an AI-assisted workflow for competitor-to-THK product matching that cuts interchange analysis time by 75%, decreases reliance on senior product managers, and builds reusable mapping knowledge with each validation.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
