SUMMARY

Technical Product Manager with hands-on experience building AI-enabled workflows and operational platforms that automate complex multi-channel inventory and reporting processes, enhancing scalability and user adoption. Skilled in customer discovery and translating enterprise needs into scalable product roadmaps.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • APIs • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational monitoring across Amazon and Shopify channels.
- Created a centralized inventory management platform integrating local warehouses, FBA, AWD, and distributor consignments, eliminating fragmented workflows and improving inventory accuracy.
- Built multi-channel inventory visibility systems that unified fulfillment operations across warehouses and distributors, enhancing coordination and reducing inconsistencies.
- Conducted over 20 customer interviews and iterative product testing to validate product-market fit, refine design and pricing, and support successful adoption and review growth.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant that consolidated technical product information from multiple catalogs and internal guides, reducing search time from 20 to 5 minutes and enabling 90% self-service completion for sales and product teams.
- Designed an AI-assisted interchange workflow to match competitor linear motion parts with THK equivalents, cutting analysis time from 20 to 5 minutes and decreasing reliance on senior product managers through reusable mapping logic and decision support.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Collaborated with executives and engineering teams to align analytics and API roadmap priorities with customer requirements, enhancing strategic focus and executive visibility.
- Conducted extensive customer interviews to distill complex telemetry reporting requests into scalable, reusable platform capabilities, reducing custom development to 1% while covering 80% of customer needs.
- Established MVP boundaries prioritizing summary-level reporting over customization, accelerating delivery and improving platform scalability without sacrificing core customer value.

- Translated recurring customer workflows into standardized product features, expanding platform adoption and streamlining roadmap tradeoffs between customization and scalability.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
